- *Laser Eye Surgery was used in the US for the first time.*
- *The Anti Depressant Prozac was introduced and quickly became the countries leader in drug sales.*

It's Been 20 Years!!!

Do you remember what you were doing 20 years ago?

Well Anthony and Carm do. It was 1988 and they had just finalized the purchase of their company from it's previous owner, Tony Martingilio whom Anthony started working for five years prior to this.

Anthony and Carm had been working very hard to develop and grow the business, between working on the development of new products and developing their business plan the year just flew by. Before they knew it they had already completed their first year in business. The next nineteen years went by almost as quickly.

For the last 20 years AMS Designs has experienced a vast array of changes, some very good and some not so, but through it all one thing has remained. Their commitment to their customers.

When you come to think about it, a lot of things have changed in the last 20 years. But, after all this time we appreciate how important the things are that are still around.

AMS Designs is one of those things. It's something we are all glad to see is still around, thriving, working hard and doing everything they can continue delivering the services and products their customers have grown accustomed to receiving.

It's All about The Hair.

For years Anthony has been experimenting with all types of materials attempting to create what he called "A head of hair" well several years ago he developed that material. The material is called TMGTM and it has become one of the most copied (but never duplicated) materials in the industry.

But anyone who is familiar with Anthony knows that was not going to be enough. Over the last 2 years he has been

hard at work developing new techniques to enable AMS Designs to deliver the finest quality hair to their clients.

This determination has once again given AMS Designs clients the confidence of knowing they truly have the very best.

Anthony and Carmelita wish to thank their staff for all their support and dedication.

But most importantly they wish to thank all their cus-

tomers for the support, concern and friendship they have given for the last 20 years.

THANK YOU !!!

Sarene honored with Sunshine Award!

In November the American Cancer Society Honored Sarene for her work with individuals dealing with the effects of chemotherapy
